Subject: FW: Draft report from EPANET Summit - April 3-4, 2018 in Reston Virginia
Attachments: EPANET Summit Draft Report Version 2.docx

Here's the email directly from Walter. Walter said that the attached version is the latest version, so I'm not sure it was ever finalized anywhere.

Subject: Draft report from EPANET Summit - April 3-4, 2018 in Reston Virginia

TO: Participants in EWRI-EPANET Summit

First of all, I would like to thank all of you for participating in the EWRI-EPANET Summit. I think that it was a very valuable experience that will have many long term benefits. As promised, the organizing committee (with assistance from several other participants) have put together a draft document summarizing the results of the Summit. I hope that you will read the document and, if you have any comments, suggestions or corrections, will email them to me.

As indicated in the document, we will have follow-up sessions at both the EWRI Congress in Minneapolis (June 3 afternoon) and at the WDSA-CCWI Conference in Kingston, Ontario in July. These meetings will be provide opportunities to further discuss the many issues.

Best wishes

Walter

Summit Organizing Committee
Walter Grayman, Chair
Regan Murray
Ted Cleveland
Dominic Boccelli
Avi Ostfeld
